

## Your guide to Hazelden's Health Care Professionals Program rates

At Hazelden, our patients and their families are able to turn down the noise of the outside world and focus on making physical, emotional, spiritual, and behavioral changes that build lifelong recovery from addiction.

Rates are based on typical costs. Actual costs vary depending on the individual treatment plan and length of stay. A financial case manager is available to answer your questions regarding costs and insurance coverage. Hazelden is an in-network insurance provider for many major insurance carriers. Some financial assistance may be available to those who qualify.

### **Comprehensive Evaluation**

This thorough, residential evaluation for health care professionals includes a comprehensive evaluation and diagnosis, complete medical assessment and exam, psychological assessment, drug and alcohol assessment, and psychiatric evaluation. Results and recommendations are discussed with the patient, family, and referent as appropriate. Evaluations are three to five days.

**Rate for full evaluation**                      \$5,400 to \$6,650

### **Residential Primary Care**

Rate covers room and board, integrated clinical care including individual counseling and group therapy, educational and therapeutic programming, wellness and recreational activities, and one family program registration. In addition, patients who are health care professionals receive a practice assessment and recommendations. Health care professionals participate in specialized groups with other health professional clients and address issues related to addiction, recovery, and the practice of health care.

**Daily rate**                      \$2,344 for detoxification services  
   \$891 for residential primary care treatment services  
   \$542 for back-to-work assessment  
   \$116/session for health care professionals group

## Residential Extended Care

Residential extended care for health care professionals provides extended clinical services for 30 to 60 days. This level of care can be increased to 90 days if clinically indicated. The cost of treatment is based on individualized treatment plan.

**Daily rate** \$415 to \$448

## Family Program

Families feel the pain of addiction, too. Hazelden's unique four-day family program helps to alleviate confusion and anxiety and promote healing by identifying how addiction affects families and what family members can do to take care of themselves. Rate includes educational programs and materials. One family program registration is included in the residential primary care treatment program. Additional family members and friends are welcome to register for the program.

**Four-day program** \$819 per person

## Mental Health Services

Services for health care patients and their family members are integrated into the treatment process and are charged on a fee-for-service basis. Services, such as mental health assessments, individual or group therapy, vary in cost by type and length of service. Prescription medications are also billed separately.

## MORE®

MORE is an 18-months of web- and phone-based personalized continuing care program. Program includes

- Guidance from your recovery coach—a licensed addiction counselor—electronically or by phone
- Encouragement to set and reach personal commitments each week
- Spiritual insights and inspiration through an online Serenity Room
- Essential relapse-prevention content and interactive tools in seven in-depth online modules

**Program fee** Free to Hazelden patients
