Young Women’s Lives

Building Self-Awareness for Life

A Multi-Session Curriculum for Young Women, Ages 14–19

What is *Young Women’s Lives*?

*Young Women’s Lives: Building Self-Awareness for Life* is a program for young women ages fourteen to nineteen. It is designed to celebrate and enhance their strength, experience, creativity, and intelligence.

It is a group curriculum for young women working together to curtail destructive behavior, to support one another’s successes, and to connect to the ongoing struggles of women in this country for greater equality, opportunity, and social justice. The curriculum is also designed to assist young women in reducing the negative impact of interpersonal and institutional violence.

Working through the sessions will help young women establish lives based on personal strength, self-confidence, connection to others, and involvement in community efforts to diminish violence against women.

The curriculum includes 21, 45 to 50 minute sessions, but shorter programs are also recommended. The *Young Women’s Lives* program includes the following components:

**Facilitator’s Guide**

Use this simple, straightforward, and comprehensive manual to get started in implementing a *Young Women’s Lives* program. This manual provides background information on the topics covered in the curriculum, implementation ideas, and step-by-step session outlines.

**Teen Handbook**

This handbook serves as a journal for young women to work through as they participate in the program.

**Video**

This video examines the social and cultural messages about gender and challenges the ideas about violence, power, and control.
Wallet Cards

Pocket- or purse-sized cards feature an encouraging message and space to write down the names and numbers of supportive people.

With Whom Would You Use *Young Women’s Lives*?

The young women may come from a variety of settings: your school, a recreation program, a treatment program, or a juvenile detention center. They may be youth leaders, “problem” youth, athletes, mothers, survivors of incest, runaways, or part of a girl’s program.

Despite the diversity of their backgrounds, and whether they have been identified as “in trouble” or not, they all have one thing in common—they are young women trying to build their lives in a society that fails to provide adequately for their safety, healing, education, growth, and personal or emotional health.

Drawing on the strength, understanding, and experience of many young women, this curriculum will help the members of your group look at, heal from, and overcome the effects of the hurts, limitations, and abuse that most young women experience.

What Are the Goals of the Program?

*Young Women’s Lives* has two primary goals:

1. To create a safe place for young women to talk, speak for themselves, hear themselves, hear one another, hear the voices of women in the community and in history, and to do so in the presence of at least one adult who is listening with respectful, caring and loving attention.

2. To help young women, both individually and collectively, develop resistance strategies to meet the difficult challenges they face in a society that does not always take their best interests into account.
