Earnie Larsen’s Life Skills Series for Inmates and Parolees
Collection includes From the Inside Out and Beyond Anger
Created specifically for clients in institutional and community correctional settings, these curricula can help your clients build healthy relationships, forgive and reconcile, and end a cycle of abuse. Includes four videos, two facilitator guides, and two sets of reproducible handouts and worksheets.

Abused Boys, Wounded Men
Taking Responsibility for Ending the Cycle of Pain
Abused Boys, Wounded Men helps clients identify instances of early abuse, recognize how it has impacted their lives, and learn how to live productively in spite of it. This six-week curriculum can also be used in non-correctional settings. Includes 2 DVDs, 10 workbooks, and a facilitator guide.

Adolescent Co-occurring Disorders Series
This program presents authoritative information about substance use and mood disorders and substance use and disruptive behavior disorders. Each program in the series includes a facilitator guide and reproducible, teen-friendly worksheets.

Rational Emotive Behavior Therapy
The Rational Emotive Behavior Therapy (REBT) program is based on the principle that individuals can change their actions by changing their thinking patterns. Hazelden’s REBT program applies these principles with booklets, workbooks, and videos based on the following key topics: anger, anxiety and worry, depression, grief, guilt, self-esteem, shame, and perfectionism.

2500 | COLLECTION VALUED AT $707.95 ONLY $595.00!

Healing Trauma
A Brief Intervention for Women
Healing Trauma is designed to help women begin to recover from the effects of trauma and help them find ways to grow, flourish, and enjoy healthy relationships and happier lives. Includes CD-ROM with facilitator guide (English) and workbook (in both English and Spanish).

Exploring Trauma
A Brief Intervention for Men
Exploring Trauma is a new gender-responsive trauma intervention program for men. It is designed to address issues such as: silence surrounding abuse, the impact of male socialization related to men’s responses, victim-to-abuser risks, and the need to understand men’s shame and fear when exploring trauma. Includes CD-ROM with facilitator guide (English) and workbook (in both English and Spanish).

Moving from Trauma-Informed to Trauma-Responsive
A Training Program for Organizational Change
Becoming trauma-responsive means looking at every aspect of an organization’s programming, environment, language, and values to better serve clients who have experienced trauma.
This comprehensive training program involves all staff, ensuring clients are served with a trauma-responsive approach at every interaction.
Includes facilitator guide, DVD, USB flash drive with reproducible materials.

Cognitive-Behavioral Therapy for PTSD
A Program for Addiction Professionals
CBT for PTSD is a research-driven approach for persons with trauma-related psychological symptoms. Codeveloped by the Dartmouth Psychiatric Research Center and Hazelden Publishing, this robust program is built on scientific evidence and designed to be delivered by real-world clinicians. Includes a 208-page therapist manual, CD-ROM with reproducible client handouts and checklists, and A Guide for Living with PTSD video.

Integrating Dialectical Behavior Therapy with the Twelve Steps
This evidence-based program incorporates dialectical behavior therapy and Twelve Step facilitation.
Combined, these group therapies strengthen recovery from substance use disorder.
This flexible program works in a variety of settings, including residential, intensive outpatient, and extended care.
Includes a facilitator guide with an introduction and session guide, client worksheets, and reproducible client handouts.

Addressing Chronic Diseases  THIRD EDITION
Health-Management Strategies for Use with Behavioral Health Clients
Developed by medical professionals, this program focuses on specific chronic conditions often seen in behavioral health clients. Each chapter provides an overview of the condition, its causes, screening and detection methods, and what to do if it occurs. This comprehensive program can easily be used in a variety of settings. Includes clinician manual and reproducible client materials on CD-ROM.

The Relapse Prevention Program
An Evidence-Based Approach
The Relapse Prevention Program helps clients identify high-risk situations, work on responses and coping skills, and explore lifestyle factors that may increase vulnerability. By following this model, clinicians can customize a program based on each client’s unique needs and minimize the risk of relapse. Includes facilitator guide, client guides and worksheets on a CD-ROM, and video.

Living Skills
Personal Growth and Practical Guidance for Everyday Life
Living Skills is a must-have program for helping clients gain proficiency in some basic areas of life. Topics are divided into two video collections—Personal Growth and Practical Guidance. Includes over 240 minutes of video as well as more than 400 pages of workbook content and facilitator guidance.

Individual Sessions
Personal Growth
These sessions focus on internal skills that promote personal development and working well with others, like making decisions effectively and setting clear, attainable goals.

Practical Guidance
These sessions focus on external factors that affect success in daily life, from implementing proper hygiene and self-care practices to establishing a career.
